 North Central Region

Subject: Planned release of brood year 2018 Chinook into the Feather River at
 Boyd’s pump and Live Oak.

On March 13, 2019, the Department of Fish and Wildlife will release approximately 670,000 brood year 2018 Chinook salmon from Feather River Hatchery into the Feather River at Boyd’s pump and Live Oak Boat launch facility as part of an experimental study. This release will include 100% marked (adipose fin clip) and Coded Wire Tagged (CWT) fish (Table 1). For questions concerning this release, please contact Jay Rowan (916) 358-2883
